

TOP 5 QUESTIONS TO ASK A ROOFING CONTRACTOR

1. How long have they been in business?

Buxton Roofing began contracting 30 years ago. Serving Commercial, Industrial and Residential customers across Northeast Ohio.

2. Do they carry Workers' Compensation and liability insurance? Is it in effect during your installation process?

After selecting Buxton Roofing to install your roof we will provide to you a current Certificate of Coverage from the Bureau of Workers' Compensation. The minimum limit of liability insurance your contractor should have for your protection is \$1,000,000. We carry \$4,000,000 aggregate liability insurance. You will receive a certificate of insurance naming you as additionally insured when you select Buxton Roofing to be your roofing contractor.

3. Are they licensed?

Buxton Roofing is licensed and in good standing with the City of Canton, Ohio and other municipalities. We are also approved and certified by CertainTeed and other major manufacturers.

4. Will they provide references?

Buxton Roofing will provide you a list of references upon your request, as well as letters from current satisfied customers. We encourage you to contact any of them regarding their experience with Buxton Roofing.

5. What is their workmanship warranty?

Buxton Roofing is proud to have achieved CertainTeed's highest level of recognition as a Select Shingle Roofer. We offer the CertainTeed SureStart PLUS warranty covering material and labor, tear off and disposal, for periods from 20 to 50 years. Few contractors in Northeast Ohio are able to offer this very strong and unprecedented warranty.

RESIDENTIAL PROGRAM

Buxton Roofing is proud to have achieved the status of a CertainTeed Select Shingle Roofer. This certification is determined by the CertainTeed Corporation, the leading manufacturer of roofing products in the industry. This is the premier level of CertainTeed roofing credential, and represents the highest standards of excellence, quality and knowledge in the shingle roofing industry.

The exciting part of being in this classification is our ability to offer CertainTeed's SureStart PLUS Warranty, on our new roof installations. This is by far the best warranty in the roofing industry.

The warranty covers the complete cost of material, labor, tear off and disposal from 20 years to 50 years depending on your shingle selection.

We encourage anyone considering a roof replacement to select the best shingle, with the best warranty. CertainTeed shingles, with the SureStart PLUS Warranty, installed by the master craftsmen of Buxton Roofing will insure you will get the best value for your investment.

A common problem with many types of roofing materials is unsightly discoloration that often

occurs in as little as one or two years after installation. On asphalt shingles, this discoloration can be easily identified as black or dark streaks running down the roof.

The cause of these streaks or stains is often thought to be soot or dirt and is taken as an indication that the shingles may be worn out. The most common cause of this roof discoloration is a specific type of alga on the shingle. The alga is called *Gloeocapsa Magna*, commonly referred to as blue-green algae. An algae spreads from an infested roof to other roofs via the release of airborne spores. When homes are built in close proximity to one another, algae can spread rapidly throughout entire neighborhoods. All CertainTeed shingles installed by Buxton Roofing are algae resistant.

Buxton Roofing also has the ability to treat your existing shingle roof for algae problems. Treating your roof is a two step process. The first step is to properly clean the roof with a special algicide. The algicide is environmentally friendly and applied carefully with light pressure to ensure a minimal loss of shingle granules. The second step is installing special metal strips at the roof's ridge to prevent further algae growth on shingles.

OVER 30 YEARS OF EXPERIENCE

- Locally owned and operated
- Specialist in shingle and flat re-roofing projects
- 20 year manufacturer's warranty on:
 - Materials
 - Labor
 - Tear off
 - Disposal
